

3RD INTERNATIONAL CONFERENCE IN PSYCHIATRY

FUTURE OF PSYCHIATRY AS A NEUROSCIENCE

May 01, 2007 - May 03, 2007
Jeddah - Saudi Arabia

www.sghgsite.com

WELCOME MESSAGE

Dear Colleagues

It is our pleasure to invite you to participate with us in the 2nd International Conference on Psychiatry, organized by SGH which will be held in Jeddah, from 2 – 4 May 2006.

We chose the theme this year to be
"Evidence Based psychiatry"

Evidence-based psychiatry is a servant of decision-making by individual clinicians rather than a master. It cannot anticipate all the nuances of a clinical encounter, but it can help clinicians to make sense of the overwhelming deluge of information .

Our aim is to present and discuss comprehensive updated knowledge in the field of psychiatry.

Eminent international, regional and national speakers from USA, UK, Switzerland, Austria, Germany, and Arab countries in the region are invited.

- The congress main speakers will be opinion leaders in the field of psychiatry as well as policy and decision makers.
- Psychiatrists, social workers, psychologists, nurses and mental health professionals are invited to present, participate and listen.
- We will do our best to make your stay in Jeddah as pleasant and profitable as possible.

Dr. Mohamed Khaled :Secretary general of the Symposium
