

5TH ANXIETY DISORDERS CONGRESS OF TURKEY

ORGANIZED BY:

ANKARA NUMUNE TRAINING
RESEARCH HOSPITAL'S 2ND PSYCHIATRY CLINIC

Uludag March 5th - 9th, 2008

www.anksiyete2008.org - dilbaz@superonline.com

Distinguished Colleagues,

We will hold the 5th National Anxiety Congress, which has been organized by Ankara Numune Training and Research Hospital's 2nd Psychiatry Clinic on a triennial basis since 1996, in Bursa / Uludag between March 5th - 9th, 2008.

Our world has spent the recent years with wars due to the changing balance and values worldwide. Even though our country is not engaged in hot conflict, violence has transformed into a concept that we come across in all parts of life, relevant to the field of Psychiatry causing loss of labor force by its consequences. Thus, we have determined the main theme of the 5th National Anxiety Congress as "violence" and "anxiety" resulting from the causalities and the results of violence.

In our congress, as we are evaluating violence towards various age and gender groups with their peculiarities causing anxiety disorders, we aim at discussing the development of anxiety disorders, accompaniment by other disorders and developments in treatment methods with the experts of the field and colleagues from abroad.

With this purpose, we invite you to join us in Bursa Uludag, which is a prominent tourist attraction in the season we will hold the congress, where the familiarity of the psychiatry congresses are not widespread.

We are looking forward to your participation to the congress we hope to be fruitful with rich scientific content of the 5th National Anxiety Congress selected among up-to-date issues in Bursa Uludag where we can enjoy the snow with the unique nature of the region.

Associate Professor Nesrin Dilbaz
Congress President

Scientific Programme

Wednesday 05/03/2008
