WELCOME TO HURGHADA

The city was founded in the early 20th century, and since the 1980s has been continually enlarged by Egyptian and foreign investors to become the leading seashore resort on the Red Sea. Holiday villages and hotels provide aquatic sport facilities for sailors, yachtsmen, scuba divers and smokers.

The underwater gardens offshore are considered some of the finest in the world, justifiably famous amongst divers, the warm waters here are ideal for many varieties of rare fish and coral reefs, which may also be observed through glass bottom boats.

The city provides a gateway to diving sites throughout the sea. Its central location provides access to dive sites.

There are lots of activities you can do in Hurghada such as diving, desert safari, snorkeling, glass-bottom boats and under-water boat.

Crystal clear waters, desert sands and year-round sunshine make Hurghada a favorite destination to our congress.
