## 1<sup>st</sup> Announcement and Call for Papers

### Welcome Message

### Dear Colleagues

We are encouraged by the success of our annual conference to invite you yet again to Cairo for a rich and rewarding scientific experience. This year we are especially honoured by the attendance of distinguished scientists from abroad who I am confident will make your attendance worthwhile. . At Kasr Al-Ainy we remain committed to the cause of mental health service development in Egypt, and would like to continue a national and international debate for its benefit especially in the area of management of mental disorders

This year we concentrate on the theme of "Psychiatry Across the Life Cycle" in order to clarify the commonalities and differences in psychiatric practice at different stages of life.

We also like to hope that the practice of emergency psychiatry, adolescent psychiatry, liaison psychiatry, problem-specific psychotherapy, and community management of substance misuse become core aspects of psychiatric management at Kasr El-Ainy and all over Egypt's mental health service.

Egypt is a country that offers a rich heritage to contemplate and a colourful present to debate. We promise you will find a warm welcome, a platform for scientific exchange, and opportunities for collaboration in teaching, clinical care, and research.

**Conference President: Professor Emad Hamdi Ghaz**
