WELCOME TO Cairo

City of Cairo

Founded in the site of babylon near the ruins of ancient Memphis, Cairo has been the largest city in Africa for centuries.

Modern Cairo encompasses many former cities and their monuments: the pharaohs; early Christian monasteries and churches-, and mosques of the Momlouk.

5000 years of culture are concentrated in the world's largest open-air museum at the center of the three continents. Travel through time in a city that is a living index to civilization.

Cairo, was described by Lithgow, 1614:

"This little world, the great Cairo... the most admirable and the greatest city seen upon the earth... the microsmus of the greater world".

FELLOWSHIP, AWARDS AND ACCREDITATION

The conference committee will provide financial support to some young psychiatrists with special scientific merits.

The young psychiatrists should be nominated by their respective member authority (please enclose recommendation letter), and send their application letter with curriculum vitae to the congress committee.

Application should be received before 15 February,2009.
