www.1stadhd-symposium.com - accaff1_symposia@ngha.med.sa

INTRODUCTION

The public, educational and medical interest in ADHD has been increasing recently with which more knowledge is

needed to direct this interest to the benefit of the children and families of ADHD persons.

In this symposium we will bring all local multi disciplinary experts with an international and regional expertise to exchange the knowledge and develop some projects to advance the care of ADHD individuals.

TOPICS

- ADHD prevalence (we will announce the result of first Saudi Community ADHD Prevalence Survey in Children and adolescents)
- ADHD etiology
- ADHD presentation in the hospital setting
- ADHD presentation in the educational system
- ADHD co morbidities.
- ADHD treatment guidelines: an update
- ADHD school approach
- ADHD behavioral management
- Computer based cognitive training.
- Family intervention for ADHD children
- Adolescents ADHD.
- Adult ADHD

OBJECTIVES

- To update all health and education workers on ADHD.
- To bring multi disciplinary team discussion to enhance collaboration in the services provided for ADHD children in Saudi Arabia.
- To improve the skills of physicians', psychologists and special need specialist in handling ADHD children.
- To improve the skills of parents in handling their ADHD children.

TARGET AUDIENCE

- Physicians.
- Psychologists.
- Special Needs Specialists.
- Parents.
- Teachers
